Education

Degree - B.E (Mechanical Engineering) 2017 to 2021
Institute - KLS Vishwanathrao Deshpande Institute of Technology (VTU)

Professional Experience

Consultant SAP Security and GRC at Deloitte (March 2025 to Present)

- Implemented Authorization concept for the clients **FRUN (Focused Run) system**, developed roles for multiple FRUN use cases and templates from scratch. Developed custom **Fiori Catalogues**, **Spaces** and **Pages** for multiple FRUN use cases. Created **custom org fields** and worked on **SU24** setup.
- Created SOP Documents for the newly implemented FRUN system.
- supported **Solman (solution manager 7.2 system)** for multiple templates. Worked on **authorization issues** , **role** and **user administration** for Solman system
- Used **GRC 12.0** as a support tool. Gained expertise in the use and Configuration of all 4 components of GRC Access Control 12.0 namely **ARM, BRM, ARA, EAM**. Worked on **MSMP (Multi Stage Multi Path)** workflows and **BRF+** custom rule creation.
- Configured the **risk terminator functionality** in GRC 12.0
- Extensively used tools like **SU53**, **STAUTHTRACE** , **SUIM, PFCG** and SAP Standard tables like **AGR_1251**, **AGR_AGRS**, **AGR_DEFINE**, **AGR_USERS** to resolve Authorization issues faced by users and Machine identities.

- Gained hands on experience on IAG.
- Worked on BTP Security activities, creating subaccounts, adding entitlements and assigning role collections to users. Establishing SAML and open id trust with cloud identity services. Gained a in depth understanding of cloud identity services (**IAG, IPS**)
- Creation of useful reports using tools like **SUIM** ,**SE16** Table Browser , **SQVI**. Implemented a report that significantly reduced the number of incoming requests by providing Mass Access to new joiners
- Co ordinated with the internal controls and the external Auditors to provide the required SOP's and Approval proofs as and when required.
- Worked on **SAP BI security**. Troubleshooting users Access to queries and other authorization issues. Gained a in depth understanding of all BI security topics and tools.
- Configured Mitigation controls and worked on UAR reviews.

Associate Consultant at Infosys (May 2024 to February 2025)

- Worked on a Greenfield implementation project as a SAP Authorization and Security Consultant. Handled all phases of each release like **design**, **build** , **defect** , **Cutover** and **Hypercare Phase.** Delivered a successful go live for the client.
- Used **scripting tools** for mass user creation and Role assignments for **cutover activities**. Was responsible for all the cutover activities from the security team and completed all deliverables in time.
- Created SOP's for all user and role administration activities for the newly implemented system.
- Used GRC 12.0 as a Support tool for Access Risk Analysis, Access request management and Emergency Access Management.
- Supported the newly implemented system during Hypercare resolving all the incidents and service requests within the SLA provided.

Senior Analyst SAP Security and GRC at Capgemini(October 2021 to May 2024)

- Started working as a SAP Security Consultant for a UK Based client in a **Greenfield implementation**. Gained in depth understanding on SAP Authorizations and GRC Access Control 12.0
- Worked on SAP role administration Design Development and modification of single, composite, master and derived roles in both ECC , S/4 Hana and Fiori systems. Here we followed Embedded model Fiori architecture. Gained a in depth understanding of the Fiori architecture and different Fiori deployment options.
- Worked on business service requests and incidents on service now During the Hypercare. The aim here was to resolve the service requests and incidents within the specified SLA ensuring quality.
- Used solution manager 7.2 (SOLMAN) as a transport tool, to transport newly developed or modified Roles and **SU24 Configurations** from Lower environments to production.
- Worked on creation of daily weekly and monthly reports as required by the stakeholders.
